

Virtamed Simulator Curriculum

We have integrated simulation into our orthopaedic training program to provide our residents with hands-on experience and feedback to acquire technical skills they can later transfer to the operating room. PGY1s start out learning a basic skill set. As residents advance in training, they work on more complex diagnostic and therapeutic tasks to acquire advanced skills as detailed below:

PGY 1

- Ankle Basic Skills Course
- Knee Basic Skills Course
- Shoulder Basic Skills Course

PGY 2

- Ankle Course in Diagnostics
- Knee Course in Diagnostics
- Shoulder Course in Diagnostics
- AANA Knee Course

PGY 3

- Ankle Advanced Course
- Knee Advanced Course in Diagnostics
- Knee Advanced Course
- Balgrist Knee Course
- Shoulder Advanced Diagnostics
- Shoulder Advanced Course
- Knee Concepts of ACL

PGY 4

- Successfully completed all courses with a minimum of 2 star rating

PGY 5

- Successfully completed all courses with a 3 star rating
